

OASIIS

Opening Access to Sustainable Independent Income Streams

Letter of support

REconomy practitioners, worldwide community of practice (CoP) supported by Art of Transition Foundation (AoT Foundation, the Netherlands) and represented by **Nenad Maljković**, REconomy practitioners coordinator and **Wouter Extercatte**, AoT Foundation president is pleased to endorse and support the action submitted by Assist Social Capital CIC in response to the OpenIDEO BridgeBuilder Challenge. Addressing the urgent global challenge at the intersections of peace, prosperity and planet in radically new ways.

The project aims to build an economy which is equitable, fair, and regenerative, for people and planet. By hosting and supporting organisations which contribute to a constructive, rather than destructive economy, and connecting them with social investment, we can accelerate the overdue transition to a socially and environmentally just economy.

We believe that this initiative will help build connections among regenerative entrepreneurs all over the world and serve as a platform for learning, action and advocacy.

REconomy practitioners CoP as an end user within this socially and environmentally conscious business community, fully supports the further development of OASIIS and its activities. We will support this action by providing advice and feedback on the idea to Assist Social Capital and contribute to the project activities, helping disseminate the project idea and activities in our community and taking part in the main events foreseen in the action, where possible.
