UNLEASHED ACADEMY FOR PERFORMING ARTS AND LEADERSHIP

The Unleashed Academy for Performing Arts and Leadership is an institution offering professional performing arts education coupled with leadership training to young talented Africans. The Academy envisions a society where youth can receive internationally recognized accreditation in performing arts style and art forms. We are positioning Tanzania to become a center for performing arts revolution in Africa.

Our vision is to see performing arts spearheading positive transformation in the world.

Our mission is to empower youth gifted in the performing art with artistic education and expose them up to opportunities that would allow them to better understand, exercise then achieve their full potential as artists, leaders and global citizens.

To this end, we have opened the Unleashed Dance Studio where trainers in different art forms (both local and international) teach different dance forms; including salsa, tango, hip hop and Afro pop.

In one of our key projects, we work with partners to give pro bono monthly workshops to disadvantaged youth (specifically orphans). The workshops will allow the children to learn not just dance itself but also develop considerably in:

- 1) Improving Physical Health
- 2) Improving memory retention skills
- 3) Attaining Education & Discipline
- 4) Attaining Opportunities for socialization
- 5) Getting room for self-expression
- 6) Improving Self-Esteem

Another project is Fufua.Nyanyua which merges traditional Tanzanian dances and music with modern dance and music. The main aim of this project reinforce our traditional roots in the evolving modern contemporary world.

We look forward to learning from and collaborating with different institutions and stakeholders.
