As a young wife and mother, I didn't even have the question "What would happen to them if something happened to me?" cross my mind until I stepped onto an international flight for the first time this year. It's time to get everything in order, cuz you never know, and Lynn has made it incredibly easy. She not only tells the reader exactly what they need to think about and do, she gives them a quick and easy way to put the plan into place. Love it.
