Want to make a difference in the life of a child?

Join Us!

The Early Learning Center at Child & Family Resources requests your participation in our Time with Tots program. You will have the opportunity to enhance the life and learning of young children (2 weeks – 2 years). Studies have shown that children that participate in Intergenerational Programs demonstrate higher levels of social acceptance, willingness to help, empathy and ability to self-regulate.

Time with Tots

Time with Tots is an hour-long activity time between our young children and seniors. Our teachers will have several planned activities and will help facilitate these activities between you and our children.

Come join us for arts, crafts, story time, and more!
