

Proven Results

After 3 years of **regenerative land & livestock management**, the land is restored: abundant grass, good water infiltration, increased biodiversity & more carbon sequestered in the soil.

“IF SUSTAINABLE LAND MANAGEMENT WAS ROLLED OUT AROUND THE WORLD, AS MUCH AS \$75 TRILLION COULD BE ADDED TO THE GLOBAL ECONOMY EVERY YEAR THROUGH JOBS AND INCREASED AGRICULTURAL OUTPUT.”

Economic Land Degradation (ELD) Initiative 2015

\$75 TRILLION = DOUBLE THE WORLD'S GDP
