**Outcomes for children:**
- Improved reading scores
- Develop social networks
- Communication skills
- Problem-solving abilities
- Positive attitudes toward aging
- Sense of purpose
- Community service
- 46% less likely to begin using illegal drugs
- 27% less likely to begin using alcohol
- 52% less likely to skip school.

**Outcomes for seniors:**
- Burn 20% more calories per week
- Experience fewer falls
- Less reliant on canes
- Overall improved health

*Older adults with dementia experience more positive effects during interactions with children than they did during non-generational activities.*

**Long-term Goal:** Young children and older adults are less alienated, and the community recognizes them as contributing members of society.
